

What is something that sleeps?

What is something that eats fruit?

What is something that eats meat?

What is something that rolls?

What is something that dives?

What is something that runs?

What is something that dreams?

What is something that bathes?

What is something that plays?

What is something that makes noise?

What is something that walks?

What is something that withers?

What is something that fades?

What is something that spins?

What is something that lights up?

What is something that turns off?

What is something that jumps?

What is something that crawls?

What is something that sings?

What is something that cries?

What is something that screams?

What is something that falls?

What is something that floats?

What is something that flies?

What is something that studies?

What is something that grows?

What is something that sneezes?

What is something that glows?

What is something that freezes?

What is something that splashes?
